Material Clarity: What topics do you think were best/worst explained by Sampad during your interaction?

I talked with Sampad about some doubts I had regarding Kernel functions, and his way of explanation was quite simple which made understanding the concept easier

Teaching Effectiveness: What qualities of teaching did you like about Sampad's approach to teaching?

The no-nonsense approach, and getting directly to the point

Personal Experience: What are some of instances in your interactions that

1) you left understanding the topic better after interaction.

2) you left understanding the topic worse and feeling confused after the interaction.

As I said before, the Kernel function doubt

Don't have a worse experience

Suggestions for Improvement: Any personal feedback, comment , suggestion, critique, appreciation so that Sampad can be better at helping students in the future

Only suggestion is to increase mic volume while speaking in discussion sessions :)

Having answered the above, would you like/dislike to take the class if Sampad was an instructor of the class in the future?

I would love to take that class
